GRAINS RESEARCH UPDATE

The Grange Meeting & Function Centre, 4A Commonwealth Lane, Campbell Town

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Herbicide management for fabas in Tasmanian rotations**
Join Jason for a discussion on the best leveraging of 'imi' tolerant faba bean varieties and existing chemistry. With faba beans rising in popularity it's time to build some core agronomic fundamentals for growing fabas.
*Jason Brand,
Agriculture Victoria*
- ▶ **Managing risk and building business resilience**
Managing drought and business resilience is front of mind after last years' dry conditions. Naomi's presentation will focus on holistic farm management as a key strategy for a resilient farming enterprise.
*Naomi Palombi,
RMCG*
- ▶ **Strategies for improving drainage on farm**
Weigh up the cost and benefits of implementing on farm drainage and the impacts on the broader farming system. Reuben will discuss practical strategies for achieving better drainage on your farm.
*Reuben Wells,
Ag Logic*
- ▶ **Optimising barley yields – what have we learned from the hyper yielding crops project?**
Improve the yields of your spring barley crop this season. Jon explores the impact of sowing time and seeding strategies on the yield of cereal crops based on results from local trials.
*Jon Midwood,
TechCrop Services*
- ▶ **Value adding opportunities on the horizon for canola and faba beans**
Unlock the value of growing canola in cropping rotations. Rob Henry and Ross Tulich discuss the opportunities on the horizon for canola crushing and the agronomic benefits of growing canola.
*Rob Henry,
Macquarie Oil Company
Ross Tulich, Elders*

\$30 per person (GST inc.) Morning tea, lunch and proceedings included.
Extra proceedings: \$30 posted inc. GST
